STAY SHARP 2023

*Ecclesiology! What is a Church
and Why Does That Matter?*

Bring your questions and insights as we do theology together in community

At Stay Sharp 2023, Greg Strand will help us revisit the biblical nature, purpose and function of the Church. We're also going to hear from experienced church leaders across the district about how their ecclesiology informs their efforts to both plant and revitalize healthy churches to the glory of God.

**February 27-28, 2023 | Waterdam Church
208 GALLEY ROAD, CANONSBURG, PA 15317**

On Monday evening, we will gather for dinner together. Along with some District updates, we will get to know Karen Strand as we interview her and Greg.

The District Constitution and Credentials Board will hold an optional **credentialing workshop** where you will learn about the benefits and process of credentials within the EFCA, how to write your license or ordination papers and answers to your questions about credentials.

The upheaval of the last few years has raised new questions about the definition and importance of the local church

STAY SHARP is provided as a resource at no cost for Allegheny District churches. Please consider a donation of \$10 per participant.
